DFGN.R 2022 Conference Program

Paper Themes:

- Team work cooperation
- Sustainability
- Student Learnings
- Courses and workshops
- Organizational Level

Conference location:
NHL Stenden University of Applied Sciences,
Rengerslaan 8, 8917 DD Leeuwarden, Netherlands

Wed Oct 5th

09:00 Morning Coffee and Registration — Entrance

09:30 Welcome Session — Auditorium

10:00 Keynote by Tessa Cramer — Auditorium

10:30 Coffee Break

10:50

Presentation 1.A
Chair: Tua Björklund
Space: Room 6

- Activating Innovation Culture; practices surrounding the design-doing of interdisciplinary collaboration
  Christine Thong, Linus Tan, Anita Kocsis, Pauliina Mattila, Aaron Down, Mesa David, Angela Pye, Amelia Iverson, Stefan Lodewyckx, Tim Boyle, Carol Azzam-Mackay, Margi Moore, Aidan Bigham and Elna Flourie
- Maximising multidisciplinary team research capacity in innovation hubs
  Linus Tan, Mesa David, Anita Kocsis, Christine Thong, Pauliina Mattila, Aaron Down and Stefan Lodewyckx
- Interdisciplinary Teamwork in Design Thinking Double Diamond: A Case Study of Shenkar Jamweek Makeathon
  Assaf Krebs, Yigal David and Alon Rosenbaum

Presentation 1.B
Chair: Peter Joore
Space: Room 9

- Public pop music radio as an example of ambidextrous strategic management
  Lisette Derksen
- Designing inclusive work environments: Enablers and hindrances of workplace creativity
  Teo Keipi, Nico Klenner and Floris van der Marel
- Innovation Catalysts: learnings from ten years of Design Factory Melbourne's interdisciplinary practices
  Anita Kocsis, Christine Thong, Pauliina Mattila, Linus Tan, Aaron Down, David Mesa and Angela Pye

Presentation 1.C
Chair: Eduardo Zancul
Space: Room 11

- From shock to re-creation:a Kintsugi approach to sustainability
  Scarlett Spiegeler Castañeda, Clemens Ackermann and David Reichert
- Industry Perspectives on Sustainability Competencies for Design Creativity
  Senni Kirjavainen and Anna Kuukka
- Combatting Plastic Soup, a Designer's View – An inventory of initiatives to combat plastic soup from a designers point of view, and a review of 2 of these initiatives
  Judith Ogink and Marcel Crul

11:50 Lunch

13:00 Keynote by Eileen Blackmore — Auditorium

13:30

Presentation 2.A
Chair: Christine Thong
Space: Room 6

- Design thinking applied to remote teams: systemic review and study opportunities
  Gustavo Gouvea Santana and Eduardo de Senzi Zancul
- A Comparative Study of Two Co-Design Methodologies
  Kuldar Taveter, Antti Ainamo, Tahira Iqbal, Kerli Mooses, Maria Laanelepp
- The smaller siblings of ME310 – Commonalities and differences between three courses on interdisciplinary and international user-centric innovation
  Clara Dieing, Peter Kaiser, Kirstin Kohler, Manuel Walter and Damian Wrobel

Presentation 2.B
Chair: Tua Björklund
Space: Room 9

- Transactional Analysis and its impact on the open-mindedness of students
  Jeannette Klomp
- Developing students' innovation capability through interdisciplinary product development projects for industry
  Juulia Lahdenperä, Jari Jussila, Anne-Mari Järvenpää and Satu Jumisko-Pyykkö
- Can art make the creative juices flow
  Merlijn Torensma

Presentation 2.C
Chair: Peter Joore
Space: Room 11

- Innovation learning experience at Javeriana Cali: Semana Diagonal
  Sara Botero, Diana Riveros, Tatiana Valencia, Lina Maria Garcia, Ingrid Shuler and Mauricio Cortes
- Examining facilitation methods and practices for co-creation: a case of a workshop to co-create the nascent hydrogen economy
  Stefan Lodewyckx, Linus Tan, Pauliina Mattila, Kim Beasy, Amelia Iverson and David Mesa
- Effectuation and creativity: a cooking exercise to practice design-driven entrepreneurship
  Luca Iandoli and Kevin James

14:30 Coffee Break

14:50

Presentation 3.A
Chair: Eduardo Zancul
Space: Room 6

- Looking Beyond Your Own Speciality: Student and Faculty Perceptions of Collaboration Opportunities
  Xiaoqi Feng, Nico Klenner and Tua Björklund
- Future-ready skills development through Experiential Learning: Perceptions from students working in interdisciplinary teams
  Sara Figueiredo, Apurva Ganoo, Vikki Eriksson and Kalevi Ekman

Presentation 3.B
Chair: Christine Thong
Space: Room 9

- Soft Expertise as a Learning Goal in Interdisciplinary Course Design
  Salu Ylirisku and Markku Koskela
- Assessing the impact of students personality characteristics such as curiosity, diligence, and perseverance on their innovation capability to solve a design challenge
  Abhijeet Malge and Saurabh Deo

What is the Future of Learning for Creativity, Innovation and Entrepreneurship?
A book presentation

Education for creativity, innovation and entrepreneurship is undergoing major changes. But this future will not emerge by accident, it will be shaped by what we do. We will collectively explore what the learning landscape will be for a range of personas in the learning environment.

Book authors:
Olga Kokshagina,
Kyriaki Papageorgio

Book contributor and moderator:
Laura Bellorini
